

Rhythm and Rhyme ~ O-4R

Wild Dogs

Wild dogs are mammals that live on every continent with an exception of Antarctica. They include wolves, foxes, dingoes and hunting dogs. Every domestic dog is related to the grey wolf which has existed for more than 3 million years.

The Sun

The sun sets when the sea is
Still, still, still.
When the fish are sleeping in their coral beds
in their coral, coral, coral beds.

~ Eilish

Spiders

Spider webs catch insects. Spiders have eight legs and some have eight eyes. They live in many places.

~ Sam

MY SUN

My sun is the sun.
It is a gold donut.
It is the sun of the world.
The sun
Is the sun of every world.

~ Aidan

Today is **Harmony Day**. Everyone is wearing orange today. If nobody has orange you will have to wear yellow. We made sushi and we made lanterns.

THE EYE OF THE SUN

The sun is like an eye,
looking through the sky.
Eyelashes are rays,
peering through the haze

~ Rosie

FUN AND FEATHERS

There's some strange creatures
With some strange features,
Like fur on the nose,
And feathers on the toes.

He has hair in the ears
And the only thing he fears
Is fur on the nose

And feathers on the toes.

The Zoo

hungry crocodile eating
cute lion cubs noisily playing
tall giraffes happily sleeping

~ Kenwa
