

5-6B & 5-6J ~ Term 2 Achievements 2004

Netball was my greatest achievement this term. When I started I was in B team and through my defensive skills I got moved up to A. Every single game I've played this term I have won, which is really great. I think both netball teams can achieve and win any game possible if they try!

Kelly

Mrs. Lawson handed me the goal shooter bib in silence. As I took my place on the netball court I was thinking, 'I have 3 seconds to shoot, make good use of them.' The whistle blew and before I knew it Lucy had passed the ball to me and then I was watching it sail through the goal ring.

Philippa

WOOOSH the rocket bottle let off with powerful pressure. The water hit the ground and the bottle flew up. Lots of water splurtted everywhere. I pushed the air pump again it got harder and harder until it couldn't hold any more air. WOOOSH. Everyone got wet and they had fun.

Justin

Oh! What a wonderful three soccer matches I had. The bus came and the driver drove us to Parkmore Primary School. The goal was small. I try hard I was already tired. Suddenly Danny scored a goal from a penalty shot. The whistle sound and we won.

Manish

Oh my gosh! Robotics is so much fun. We have been able to experiment with all the equipment. I have only done it twice but I love the Logi blocks.

Rhiannon

Our first soccer match was against Parkmore. I was so excited and I wished my team the best of luck .the luck happened and we came back with a 1-nil victory.

Scott

5, 4, 3, 2, 1, blast off! 'Wow' the rockets went flying up into the air on the oval of Mullauna College! My eyes went open wide & my heart was beating fast. I was pumping up the bottle & then my bottle went flying up high! It was great, I would love to do it again!

Stella

"I've got to hit the ball," I kept on saying. I was really nervous. My first game! I couldn't lose, captain for the first game too. I thought being captain was fun but at the moment it wasn't fun at all. The best part in Volleyball is when we win. Our team's the best and if we try we can beat anyone.

Yasbe

This girl is no ordinary girl from P/1C. She's my buddy, Renée! Renée may be shy and small but she has a huge heart inside. I look after her and teach her new things so I guess she looks up to me to be a wonderful role model.

Jessica P

Bang! The starting gun shot out in silence and suddenly I realized all the people beside me were running for their lives. I started jogging with Jessica all the way until the last 20metres. I could feel sweat trickling down my forehead. With my heart beating furiously I sprinted to the finish line at the District Cross Country.

Kim

'Play!' goes the teacher telling us to start to play volleyball with six people on the other side from another school. "Oh NO!" the ball came and I whacked it flying through the air. Everyone saying "Good try" to each other. "Go Mitcham volleyballers!"

Azizah

Bang! The gun went off. I was coming 3rd out of the Year 6 girls for the first four laps. For the two last laps I started to get a headache. A few people over lapped me. But luckily I came eighth and I was allowed to go to District.

Brodie

All the 5/6's went to Mullauna to make rockets. I was so nervous because I didn't know how to make a rocket. All day I thought we had to cut the bottle and make a rocket. When we went to Mullauna I was nervous when Mr. Atkinson talked to our group. My heart was going so fast, but when he told us how to make the rocket, I felt better. After I had made my rocket, I felt very pleased with myself.

Darian

The race began as we all started to run. We ran over hills, up paths and over bridges. I was kind of relieved when I crossed the finish line at the end of the District Cross Country.

Elena

Lucas is my buddy. When I talk to him I feel like a teacher. Lucas is very good boy. I like him and I hope he like me too. He is really special to me.

Lajos

Bang! We were off! I ran as fast as I could. I saw a huge hill coming up. I ran up the hill. I soon had a bad stitch. There was the finish line! I had made it over the Cross Country.

Judy

We were at the flags! My heart was pounding I had butterflies in my stomach. Then BANG the gun went off. In shock I was off like a horse in fright. I sprinted as hard as I could in Cross Country.

Jack

I had a fantastic time giving visitors tours around our fascinating school. At first I thought I felt rather strange coming to school at 1pm until 7pm. I had an awesome day during Wednesday's late open day.

Amy

The gun shot off! I ran at medium speed to keep my pace. Gasping for air I looked up ahead. Oh no! Up ahead was the biggest hill I had ever seen. Panicking I lost my pace and started to sprint.

Jayden

I was at the base and my heart was pounding! I had swept going down my face and then the ref said. 'Play ball!' What am I going to do? What if I miss! Then I hit. I dropped the bat and ran to 1st then 2nd, 3rd and home. This was a magnificent day of t-ball every body was cheering me on. And guess what! We won and it was because of a team effort.

James
