

Art in the Junior School

In *Grade 2/3B* students are examining how ideas are communicated visually. We used line and colour to indicate movement.

Students from *Grades 1/2T, 1/2L & 1/2W* have been making toys. They made dolls by rolling and tying fabric.

Our junior students from *Grades 0/4R and 0/5J* explored using different lines and their footprints to create beautiful fish.

The Junior School students have been very busy in the Art Room. *Prep B* and *Prep/1 C* students have been creating self-portraits using a variety of materials. This is a fabric collage of the children in their school uniforms.
